INTRODUCTION

A goal-oriented IT student currently pursuing a Bachelor in Information Technology (Honors), supported by nine years of professional work experience. I offer a strong foundation in IT principles including web development, LAN configuration, and database management complemented by a proven history of professional excellence and customer-focused service. I am committed to delivering results through technical aptitude and a disciplined, service-oriented approach.

EXPERIENCE

KLK Hardwood Flooring Company

Senior QA Inspector

December 2024 - August 2025

- Conducted quality control inspection on raw materials and finished products.
- Applied data collection and analysis to monitor product quality.
